

## COVID-19 Safety Management Plan (COVIDSafe Plan)

School Details	Details
Name of School	Kurrun Primary School
Date COVIDSafe Plan last reviewed	17 August 2022
Name of health and safety representative (where relevant)	
Name of principal or delegate	Gavan Hughes
School Health and Safety Committee details (where relevant)	

This **COVID-19 Safety Management Plan (COVIDSafe Plan)** applies to all Victorian government schools, outlines the key health and safety risks, and links to the latest guidance. The COVIDSafe Plan also links to the strategies described in the [School Operations Guide](#) and supports schools to plan for and implement the key health and safety controls in the context of coronavirus (COVID-19). This includes implementing the pandemic orders of the Minister for Health and accessing the central and regional supports to reduce transmission risk and to support school staff, students, and the school community to be well and COVIDSafe. The latest Coronavirus (COVID-19) advice for schools is available at [COVID-19 advice for schools \(education.vic.gov.au\)](#). A template presentation “Back to School Plan” has been circulated to School Principals to support conversations with staff around COVIDSafe measures in place for Term 3; as well as template letters to support communicating with parents/carers about changes in pandemic order requirements for both mainstream and specialist schools from Term 3 – see [Support and Service \(Schools\) > Coronavirus and learning from home > Communicating with parents and students > Communications support pack \(eduweb.vic.gov.au\)](#)

The [School Operations Guide](#) provides detailed advice and guidance about these controls and supports, and should be read together with this COVIDSafe Plan. The [coronavirus \(COVID-19\) advice for schools](#) is evolving over time and the [OHS guidance and supports](#) will be continually reviewed and updated as required.

Principals must consult with their local health and safety representative(s), health and safety committee(s) (HSC) (if applicable) and school staff to implement the recommended controls to the maximum extent reasonably practicable. Contact your [Regional OHS Support Officer](#) for assistance with local consultation if required. A [draft agenda](#) has been developed for HSC meetings to assist in facilitating consultation and identifying and managing risks.

COVIDSafe Roles and Responsibilities Posters must be displayed on the school’s OHS noticeboard detailing the shared responsibility of health and safety in schools, and the health and safety measures that should be applied in schools. Posters are available in the [communications support pack](#).

Your local [Regional OHS Support Officers](#) and the Department’s [OHS Advisory Service](#) are available to provide support to your school to implement the latest guidance, tailor this COVIDSafe Plan to your setting, for suggestions on establishing effective controls, or assist with access to supports, advice and resources.

The DET COVID-19 hotline ([1800 338 663](#)) is available for all Department staff, contractors, and parents 8.30am to 5.00pm Monday to Friday (excluding public holidays) for any questions, queries, or concerns. Employees may also access the guidance at [COVID-19 Advice Line - FAQs](#).

Employees are encouraged to use [eduSafe Plus](#) to report hazards, incidents and mental and physical injuries; to ensure effective and timely resolution of OHS issues; as well as to escalate issues for further support when required. eduSafe Plus reports are being centrally monitored to ensure that timely and effective support can be provided.

If you or your family need support, personalised over-the-phone or video counselling is available 24/7 through the [Employee Assistance Program \(EAP\)](#). This service is available to all school staff and their immediate families (aged 18 years and over). Staff can book by calling [1300 361 008](tel:1300361008) or by using the live chat function on the [Lifeworks' Australia website](#). Other mental health supports are available on [OHS guidance and supports](#) including supports tailored to respond to COVID-19 and remote working risks.

This plan covers four key areas of risk ('hazard types'):

- Infectious Disease (Infection Prevention and Control)
- Working Alone, in Isolation or from Home
- Work-Related Violence
- Mental Health and Wellbeing.
